

Dear Parents/Guardians:

The cold and flu season is here, and as a school, we would like to prevent the spread of germs as much as possible.

We are in need of antibacterial wipes (Clorax, etc...) for the classrooms. In the past we have had them donated, but unfortunately, those funds have run out. These wipes are used in many of our learning centers throughout the building to wipe off spaces your child uses during the day.

If you are willing to help supply antibacterial wipes for your child's classroom, it would help out greatly and your educators would really appreciate it.

Thank you,
Northern Cass
